

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

From 5th February, 1900, to 16th February, 1916.

JOHN M. DENNIS,

From 16th February, 1916.

REPORT  
OF THE  
Comptroller of the Treasury  
OF THE  
STATE OF MARYLAND.

---

TREASURY DEPARTMENT, COMPTROLLER'S OFFICE,  
ANNAPOLIS, MARYLAND, DECEMBER 26TH, 1917.

*To the Honorable,*

THE GENERAL ASSEMBLY OF MARYLAND:

In pursuance of Section 9 of Article 19 of the Annotated Code of Maryland, requiring that I submit a statement of the financial affairs of this State, I hereby respectfully present my Report for the fiscal year ending September 30th, 1917.

RECEIPTS AND DISBURSEMENTS.

In Statement "A" will be found the total receipts for the year, as \$11,676,471.43, to which must be added the cash balance on hand October 1st, 1916, of \$1,624,095.23, aggregating \$13,300,566.66. Statement "B" for a like period shows disbursements of \$11,450,662.22, with a cash balance in the Treasury proper of \$1,849,904.44, to which must be added the balance to credit of the Funds account of \$423,715.17, or a total cash balance in banks September 30th of \$2,273,619.61. A perusal of these two Statements will be found most interesting and instructive, as each are set forth in detail, but I especially desire to call your attention to the Summary at the end of Statement "B," wherein is shown at a glance the operations of the Treasury for the year, including not only the cash balance in Banks,

\$2,273,619.61, the excess of cash over dedicated funds of \$640,-419.84, but also a balance of \$372,043.17 in general funds to meet the obligations of the State, including balances brought down.

#### ESTIMATES.

In making estimates for the fiscal year ending September 30, 1918, we use the figures of preceding years as a basis, and after considering each source of revenue and determining as best we can whether there may be an increase or decrease therein, and to what extent, we submit the amounts so revised and determined as the probable amount of income into the General Funds. If for any reason the General Assembly changes the sources of expected income, then the estimates which have been submitted will be augmented or depleted to such extent as the law applies. I deem it prudent to refer to this so that your Honorable Body may in case of any changes in the laws affecting State revenues take such action as will provide for sufficient income to meet the required expenditures of the General Funds from the Treasury.

#### SINKING FUNDS.

An examination of Statements "E" and "F" will give you a very concise and interesting exhibit of the operations of these funds during, and at the close of the Fiscal Year. The first Statement will show you the receipts into the Treasury for each Fund, and the investments made therefor, while Statement "F" will give in detail the stock holdings for each separate Fund, aggregating at the close of the year \$6,873,000, with a cash balance of \$419,897.67 carried down into the next Fiscal year. While this balance may appear large, yet the Treasury officials deemed it wise to carry the same down in order to invest it in the "Second Liberty Loan" Bonds, which has been done, the bonds thereof being now placed with the State's other securities in its safe deposit boxes.

Permit me to call your attention to the high character of these investments, \$6,873,000, being in our own State bonds, while \$283,000 is represented in the issues of the several municipalities and counties of this State, as therein set forth.

#### STATE DEBT.

Your attention is respectfully called to Statement "J," showing the gross debt of the State at the close of the fiscal year, as

\$27,448,880.55, and while the State issued during the year, new loans, aggregating \$2,000,000, nevertheless by reason of the redemption of certain loans the gross debt was only increased by \$1,163,000,

1916

Oct. 1, Gross Debt - - - - - \$26,285,880.55

Issued during year:

Three Million Dollar Loan of

1916 — balance - - - - - 1,500,000.00

War Loan of 1917 - - - - - 500,000.00 \$28,285,880.55

Redeemed:

State Loan of 1902 - - - - - \$ 600,000.00

Omnibus Loan, Series "A" - - 57,000.00

State Roads Loan of 1914, Series "A" - - - - - 180,000.00 837,000.00

Gross debt Sept. 30, 1917 - \$27,448,880.55

Less Stock, Bonds and Cash to credit of Sinking Funds - - - \$ 7,292,897.67

Mortgage of Northern Central Railway Company - - - - - 1,500,000.00 8,792,897.67

Net debt - - - - - \$18,655,982.88

By reason of the investments in the Sinking Funds, this net debt shows an increase for the year of only \$886,368.92, notwithstanding new loans were issued for a like period of \$2,000,000 as above shown.

#### TO STANDARDIZE COST OF GOVERNMENT.

I have had in mind for a number of years that the cost of government could be standardized, and it was my purpose, during my term of office, to make an effort to carry this idea into effect. The experience of the past two years has confirmed the view which I have previously held, and I am convinced that the cost of government can be almost accurately determined in the various States of the Union.

Under the most favorable circumstances, there will be differences in the cost of government just as there are differences in the expenditures of individuals. Those States whose revenues are large will perhaps be more liberal in their expenditures than States whose incomes are limited, but the main point to have in

mind is that efficient government and economical government are not incompatible. Efficiency is the most desirable thing in government, economy one of the most necessary. It is thoroughly practical to determine the proper cost of efficient government, and for that purpose I have made a very careful comparison of the cost of government in the various States of the Union. It is, so far as I am aware, the first time that a comparison of this kind has been made by any State official. The tables which I have used do not all belong to the same year, because the reports of many State Auditors and Comptrollers are made under different circumstances and at different times. It is therefore impossible to have the cost data for the same time in each State. The accounting system of the various States differs measurably, and the analysis of the reports requires the closest study and scrutiny. I have tried to give the work the attention which it deserves, and I believe that it will furnish to the people of Maryland information which will be of much value. I hope the work which I have begun may be taken up in other States, and that the result in the near future may be a uniform system of accounting in all the States of the Union; that all reports may be uniform, and that the same terminology may be used, so that like expenditures may thus be easily compared. If a concerted effort is made by the various States along this line, the taxpayer and those who bear the cost of government can always recognize the efficient and capable public servant, because of the service he renders, and of its cost to the people.

In presenting the Table "M," which gives a summary of the cost of government in those departments in which a comparison can be made, I do not do so stating it to be an absolutely accurate cost of government, but as near perfect and as near accurate as can be made from the data obtainable in the reports made by the Auditors and Comptrollers of the various States of the Union. I can say that it is at least a careful study of comparison of costs in different States. Its chief value will be in the effort made to establish the idea in the minds of those interested, that an accurate cost of government can be established.

The United States Bureau of the Census in Washington, for the past few years, has been making an effort to present the costs of government of the various States. It is a work of great importance, and is being capably handled; and it is possible that through this Bureau a plan may be evolved for uniform reports from all the States of the Union. I know of nothing in government more important than to try to determine what it should

cost the people, just as a manufacturer or business man must base his success upon determining the cost of his product or his organization. If we could replace uncertain and inaccurate methods with certainty and accuracy in transacting the public business, the great question afterwards would be capability in public service, and if you can place capable men in the important positions of State government, it follows that every department of the government will, in the course of a reasonable time, be brought up to the highest standard of efficiency and economy. The table which I have attached marked "M," "Analysis Costs of Government," I hope, may be found of great value and of much interest to those who give the cost of government study and attention, and that this initial effort may be the means of stimulating others to greater activity in this particular field, and if a number of persons can be interested in the plan, it will mean success in the near future, and will be the means of rendering a service of permanent value to those who study the cost of government.

#### THERE SHOULD BE NO BOND ISSUES.

During the war period, the resources of the people of this country will be taxed to their utmost. It is a time of sacrifice, a time when all matters that can be deferred should be deferred, and our greatest and most effective aid should be given to the successful prosecution of the war in which we are engaged. To do this, we should avoid all internal improvements of every kind which can reasonably be deferred. We should avoid expenditures of every kind except those actually necessary and imperative. For that reason, I would respectfully suggest that there be no bond issues until after peace has been declared. There has been an authorized expenditure of \$1,000,000 made by the Special Session in June, 1917. The amount expended from this appropriation is \$500,000.00. It will be necessary to meet this either by a direct tax levy or a bond issue to replace the bonds which were temporarily issued. In my reference to bonds above, I did not refer to this issue, as the same is an obligation already assumed, and must be met as the wisdom of your Honorable Body suggests; but in speaking of bond issues, I have in mind the issuing of any bonds for further public improvements or buildings of any kind.

There are certain important things to be done. For instance, the great roads system of the State must be kept in thorough re-

pair. All public buildings must be kept in like manner. It is false economy to neglect the proper up-keep of those things in which the State has invested so much money, and in my opinion these matters can be provided for out of the usual tax levy and the revenues of the State. I respectfully call your attention to the economical expenditures of the Session of the General Assembly of 1916, and point out that economy has its proper place in your Honorable Body, because if properly intrenched therein, it will influence all other branches of the State government to the practice of the same necessary virtue.

#### WAR CONDITIONS.

It is difficult to foresee all the requirements which will be made upon the State during the next two years because of our being at war with the Imperial Governments of Germany and Austria-Hungary. It seems apparent now that some provision must necessarily be made for the military arm of the State, and I presume the Adjutant General will present full information to your Honorable Body in regard to this.

I do not mean to pass any opinion on the military necessities of the next two years, as that matter will, no doubt, be one which will occupy your most serious attention and concern.

#### BOARD OF CONTROL AND REVIEW.

There are some improvements to which I wish to draw your attention. They are important, and I believe practical, and they may be of considerable value to the State. The two years which I have served as Comptroller of the State have impressed me with the urgent necessity of carrying out the suggestions which follow. Some can be accomplished by slight amendments to existing laws; others may require the enactment of entirely new legislation to make them effective. I will begin with what I deem the most necessary legislation, namely, the enactment of a law, constituting the Board of Public Works as a Board of Control and Review, to which Board shall be submitted between the 15th and 25th of each month a statement showing the requirements of every Board, Commission or Body authorized to make expenditures of moneys from the Budget appropriations approved by your Honorable Body. This requisition shall contain a list of all anticipated expenditures for the month succeeding the time in which the requisition shall be submitted to the Board of Control and Review. The Board of Control and Review shall have power

to reduce or eliminate any item or items which, after investigation by them, may be deemed an unnecessary expenditure, and that only such expenditures as are approved by the Board of Control and Review shall be allowed for payment by the Comptroller of the Treasury of the State of Maryland, and that a certified copy of the requisitions approved by said Board shall accompany all bills presented by any Board, Commission, or Body to the Comptroller of the Treasury of Maryland, before he shall cause a warrant to be issued from his office for the payment of the expenses of said Boards, Commissions or Bodies.

It is apparent that in order to make the Budget System of the State really effective that there should be a Board of Control and Review, whose duty it is, in advance, to pass upon all expenditures which are to be made by the various Boards, Commissions or Bodies of the State, to the end that all tendency to extravagance or unnecessary expenditures may be prevented. This will be accomplished, provided the requisition for the expenditures are made the month preceding the time in which the debts are to be contracted.

No matter how carefully the estimates may be made of appropriations necessary to the Boards and Commissions of the State, they cannot be made accurately; but where the expenses are controlled in advance, as they will be under the plan suggested, any excess of appropriation over and above the actual needs of such Boards and Commissions will be saved and revert to the general Treasury at the end of each fiscal year.

#### HOSPITALS, HOMES AND ASYLUMS OWNED AND OPERATED BY THE STATE.

Under existing conditions, the General Assembly of Maryland has made appropriations for the use of Hospitals, Asylums and Homes, owned and conducted by the State. There are other sources of revenue, or income to these institutions; namely, amounts paid into them by the various counties of the State. A third source of revenue is amounts received from private individuals for the care of the infirm and afflicted. A fourth source of revenue is the value of products received from the farms connected with some of these institutions. I respectfully suggest to your Honorable Body that the following plan be adopted for the future: That the State make a flat appropriation based upon a per capita allowance of the average population during the past two years for every institution of the State, and that revenues of

every kind be turned into the General Treasury of the State, and that an accurate inventory of the farm products of all institutions be made and the same charged against the institution, and paid for by it into the General Treasury of the State. The value of this method lies in the fact that the law of 1916 provides for a per capita allowance to the various institutions within the State receiving State aid. This per capita allowance, when properly worked out, will be the basis of actual cost for maintenance of the inmates of the Hospitals, Asylums and Homes of the State, and all appropriations can be made to these institutions on this per capita basis. It will enable the State to conduct these institutions at a fair and reasonable cost, and to control them by having command of their one source of revenue; for the expenditure of which proper accounting must be made to the office of the Comptroller. It is obvious that if there be but one source of revenue from which to pay the expenses of institutions, that their expenditures will be more easily ascertained, and the real per capita cost more thoroughly established.

#### FARM LANDS AND INSTITUTIONS.

While conditions at present are abnormal, I believe that it will be generally conceded that the cost of farm products will remain rather high, and in view of the fact that such costs will be high, I would suggest that it be made a *policy of the State*, if any further buildings, such as Asylums and Homes, are to be built, that they be built in fertile agricultural districts along the improved highways of the State where access to them will be easy and quick, and that a sufficient quantity of land be purchased to employ for reasonable hours, in a helpful manner, all the available population of the institution, so that they may aid as far as possible in making the institution self-supporting, and furnishing such employment as will be beneficial to those who are afflicted or diseased.

To carry out this project I would suggest that a plan be evolved whereby the Maryland State Board of Agriculture would have charge of the agricultural lands of the State, and that the responsibility for their cultivation, and the profitable farming of the lands be placed upon the Maryland State Board of Agriculture, but done in such a manner that there shall be no conflict between the physicians in charge of the State Hospitals and Asylums, and the Agricultural Department of the State. It is obvious that it is unfair to ask the physicians in charge of the vari-

ous institutions, whose time and attention is required for the patients under their charge, to give the time and the arduous labor that is necessary to insure the highest productiveness of the farm lands attached to the various State institutions. It will be necessary in the adoption of a plan to have in mind perfect harmony between the physicians and the Maryland State Board of Agriculture, so that the labor of the patients which can be used for farm work will be controlled by the physicians in charge, and yet that the greatest number of those who could render service with benefit to themselves and the plan, will be at all times available by those in charge of the farm work.

#### DUPLICATION OF THE PRINTING OF STATE REPORTS.

Article 78 of the Annotated Code of Maryland, title "Public Printer," provides that the Board of Public Works shall advertise and award the contract for the State printing for the General Assembly of Maryland, based upon certain specifications therein mentioned, namely:

"Four thousand copies of the Governor's message in English, five hundred copies of the Governor's message in German, three thousand copies of the reports of the Comptroller of the Treasury, one thousand copies of the reports of the State Treasurer, one thousand copies of the reports of the Adjutant General, one thousand copies of the Mine Inspector's report of Allegany County, two thousand copies of the school reports, one thousand copies of the reports of the Insurance Commissioner, one thousand copies of the reports of the Commissioner of the Land Office, two thousand copies of the reports of the State Board of Health, two thousand copies of the reports of the Chief of the Bureau of Statistics and Information, one thousand of which shall be distributed by the Printer to the labor organizations of the State; one thousand copies of the report of the State Fish Commissioners."

as well as providing for the regular work for the General Assembly, such as the printing of the daily journals of the Senate and House, bills, etc.

In addition to this requirement, there are appropriations providing for the publication of many of the reports above mentioned by the respective departments, an unnecessary duplica-

tion, in my judgment. In my opinion, it would be much better to have this "article" so amended that all reports of the several State departments shall be printed by the State Printer under advertisement, upon specifications and bids definitely and specifically providing for the character of the work and the cost of the same, and I am respectfully submitting the same to your Honorable Bodies for such action as in your judgment you may deem best.

#### STATE AND MUNICIPAL EXPENSES.

I beg to direct your attention to Statement "N," showing the cost of government in the several cities of this State. I know of no compilation of this character before, and I am submitting it, believing that it will be of great interest to the people of this Commonwealth.

#### COST OF STATE BUILDINGS.

I am submitting herewith a statement, showing the cost of State buildings, believing that it also will be of interest to your Honorable Body:

Fifth Regiment Armory - - - - -	\$ 420,000.00
Troop "A" Armory - - - - -	50,000.00
Fourth Regiment Armory - - - - -	200,000.00
Annapolis Armory - - - - -	65,000.00
Cumberland Armory - - - - -	15,000.00
Frederick Armory - - - - -	51,000.00
Salisbury Armory - - - - -	40,500.00
Elkton Armory - - - - -	30,000.00
Bel Air Armory - - - - -	30,000.00
Cambridge Armory - - - - -	33,333.33
Hyattsville Armory - - - - -	33,333.33
Westminster Armory - - - - -	33,333.34
Deaf & Dumb Asylum at Frederick - - -	255,000.00
House of Correction - - - - -	681,000.00
House of Correction, Farm - - - - -	57,000.00
State Tobacco Warehouses - - - - -	275,000.00
Maryland Penitentiary - - - - -	1,384,000.00
Frostburg Normal School - - - - -	77,000.00
Executive Mansion, Annapolis - - - - -	195,000.00
State Normal School (Old and New) - - -	925,000.00
Maryland Agricultural College - - - - -	625,000.00

Sub-Station at Ridgely - - - - -	14,000.00
Maryland Tuberculosis Sanatorium - - -	400,000.00
Johns Hopkins Technical School - - - -	600,000.00
State House Annex - - - - -	850,000.00
Heating Plant at Annapolis - - - - -	140,000.00
Court of Appeals Building - - - - -	290,000.00
Crownsville State Hospital - - - - -	375,000.00
Spring Grove State Hospital - - - - -	811,000.00
Springfield State Hospital - - - - -	1,235,000.00
Springfield State Hospital, Farm - - - -	15,000.00
Rosewood State Training School - - - -	475,000.00
Eastern Shore State Hospital - - - - -	300,000.00
Total - - - - -	<u>\$10,981,000.00</u>

## COST OF STATE ROADS THROUGH BOND ISSUES.

The State has made large expenditures for the improvements of its highways, most of which has been done through bond issues, and to show you the amount appropriated by the State for this purpose, I am herewith submitting an itemized statement of the amounts, and laws authorizing the several loans, viz.:

State Roads Loan, Chap. 141/08 - - - -	\$ 5,000,000.00
Public Highways Loan, Chap. 116/10 - -	1,000,000.00
State Loan of 1912, Chap. 370/12 - - -	3,170,000.00
State Roads Loan of 1914, Chap 267/14,	6,600,000.00
Three Million Dollar Loan of 1916, Chap.	
681/16- - - - -	2,700,000.00
Consolidated Loan of 1913, Chap. 749/12,	40,000.00
Total - - - - -	<u>\$18,510,000.00</u>

## RECOMMENDATIONS.

I am adding herewith a copy of letter mailed to the Attorney General of the State, suggesting certain changes in the existing laws which should be very beneficial to the State, and I ask for them your careful consideration.

Dec. 26, 1917.

Hon. Albert C. Ritchie,  
Attorney General,  
Baltimore, Md.

My Dear General :—

This office is respectfully calling your attention to some economies which we believe can be effected by amending certain laws providing for various publications, and other matters herein mentioned, kindly asking your co-operation in the preparation of such bills, in order that the same may be presented to the General Assembly of 1918.

I would suggest an amendment to Section 1 of Article 78-A, title "Public Works, Board of," of the Annotated Code of Maryland, wherein it provides that the Board of Public Works shall advertise in three daily newspapers published in Baltimore city in each and every year, etc., the amendment to be "Provided that if, in the judgment of the Board of Public Works, the sum to be expended shall be for a less sum than \$500.00, then in that case, the Board of Public Works shall not be required to place such advertisement." The reason for this is that the cost of the advertisement for a small amount of work adds very materially to the expense incurred.

I am further calling your attention to the enactment of a law providing that all collectors of State taxes, or other revenues, in the State of Maryland who are now required to furnish bond, shall furnish such bond by a bonding company, duly authorized and empowered to do business in this State, as the experience of this office has shown that where bonds are supplied by bonding companies, settlements of any delinquencies can readily be made without any loss to the State.

There are times when the general funds of the State Treasury should be augmented from every possible source. They are what are called the lean periods of the year, and in order to make this effective, I would suggest that the provision in Section 178, Tenth of Article 23, title "Corporations," sub-title "Insurance Department," of the Annotated Code of Maryland, wherein it provides that the Insurance Commissioner shall "on the first day of December, annually report to the Comptroller the fees received, and the expense of his Department for the year then to end, and pay into the Treasury all excess of receipts over disbursements" be so amended as to read "shall on the 31st day of December, the 31st day of March, the 30th day of June, and the

30th day of September in each and every year, report to the Comptroller of the Treasury and pay into the State Treasury all moneys received by him from all sources, save and except the moneys received by him as the fees of his office, and shall on the first day of December, annually, report to the Comptroller the fees received and the expenses of his department for the year then to end, and pay into the Treasury all excess of receipts over disbursements."

I would further call your attention to Section 26 of Article 81 of the Annotated Code of Maryland, title "Revenue and Taxes," sub-title "Record of Property Assessed," wherein it is provided that "The said Clerks (clerks to the County Commissioners and the Appeal Tax Court of Baltimore City) shall transmit to the Comptroller, annually, within thirty days after the annual levy of taxes for the State, a return of the assessments of property in each county and the city of Baltimore, showing the amount thereof and the amount placed in the hands of each collector of such county or city."

In my judgment, the provisions of this section should be so amended as to include quarterly reports to the Comptroller, to the end that all new assessments of every kind should be promptly charged against the collectors, not waiting for a lapse of months before such entries can be made.

Very respectfully,

HUGH A. McMULLEN,

Comptroller.

All of which is respectfully submitted,

HUGH A. McMULLEN,

Comptroller.
